

Deer Creek Hills Birding Outings 2017

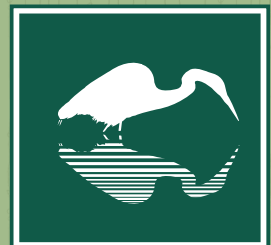

Join the Sacramento Valley Conservancy docents for a birding outing at Deer Creek Hills Preserve. Everyone welcome from total beginners to total bird nerds. We are there

for the love of birds and the love of sharing and learning from all. Data is collected on every outing and a list submitted to E-bird. Our goal is for everyone to get nice looks at a variety of species and observe their natural behaviors. Most routes traverse 3-4 miles over uneven terrain. In February and March expect wet grass and small stream crossings. April is unpredictable. Stickers can be an issue for the May outing. Register for directions and for list of what to bring.

*Attendees must pre-register online. All outings limited to 12 guests – if you have a larger group enquire about a special outing for your group.
