

Request for Proposals (RFP)

Camp Pollock Myrtle Johnston Lodge Roof Replacement

Introduction

This Request for Proposals (RFP) solicits proposals from qualified, licensed, and bonded General contractors to replace the roof on the Myrtle Johnston Lodge at Camp Pollock. This RFP outlines the project scope, submission requirements, and evaluation criteria.

The Sacramento Valley Conservancy (SVC) is the long-term manager of the 11-acres at Camp Pollock, which is owned by the California State Lands Commission. The site is managed in accordance with the American River Parkway Plan, a guiding document which is overseen and implemented by the Director of the Sacramento County Department of Parks and Recreation.

SVC began managing Camp Pollock in 2013. The site serves more than 8,000 visitors each year for public and private events. After completing a major renovation to the Myrtle Johnston Lodge in 2016, these numbers have rapidly grown as surrounding community members discover this hidden gem. SVC is consistently implementing site improvements that improve access for users, increase educational opportunities and encourage community engagement.

The existing roof is in poor condition. With the property now hosting more weddings, banquets, and high-end events—whose fees are vital for offsetting annual property maintenance costs—there is a critical need to provide a comfortable, weatherproof, safe and functional indoor space.

SVC is a 501(c)(3) nonprofit land trust founded in 1990 on two basic principles: open lands are necessary for quality of life and we must care for the land today so future generations may enjoy its physical and spiritual benefits tomorrow. SVC's mission is to preserve the beauty, character and biodiversity of the Sacramento Valley landscape by protecting and stewarding natural and working lands, and scenic open space.

Scope of Services

SVC ("client") is seeking to hire a qualified, licensed, and bonded contractor to completely replace the roof on the Myrtle Johnston Lodge. The individual or entity ("contractor") to provide design, permitting, demolition, disposal, and install services to replace the roof.

Scope of work is to include but is not limited to:

1. Obtaining all necessary permits.
2. Removal and proper disposal of existing shingles.
3. Thorough inspection of the roof deck and structural components to identify and make all necessary repairs.
4. Advising client on material recommendations and options.
5. Installation of new roofing materials that meet building codes and standards. The new roof should include appropriate underlayment, flashing, and weatherproofing.
6. Complete cleanup of the job site, ensuring all debris and materials are removed and the site is left in good condition.

Bid Submission Requirements

Interested contractors shall include the following combined into a single pdf:

Cover Letter – Include RFP project name and contractor information, proof of license, insurance and bonding. List any warranties provided for materials and workmanship.

Technical Approach – A brief description of the contractor's understanding of the project site and a description of the recommended materials (shingles, underlayment, flashing, additional weatherproofing) and timeline for completion.

Background – Briefly describe your background and qualifications, including resume(s) and electronic examples or links to similar work or products.

Budget – Provide a detailed budget of itemized costs, including labor, materials, permits and any additional fees or optional upgrades.

References – Provide contact information for two professional references.

Timeline

- RFP Release **June 10, 2024**
- Pre-bid meeting **TBD** - Attendance-optional with an unstructured Q&A session and time to access the roof. RSVP to info@sacramentovalleyconservancy.org
- Proposals must be received by **September 30, 2024**
- Selection will be made by **October 22, 2024**
- Services Agreement to be complete by **October 31, 2024**
- Project demo-install preferred **November 1, 2024 – February 28, 2025**

The criteria and scoring system will be based on the following:

1. Qualifications and Experience. Scoring based on the likelihood that it will meet the requirements of the Scope of Project. Please note any business or specialty certifications in your background information. (30 points).

2. Technical Approach Evaluation. Scoring based on a thorough and detailed approach, compliance, and ability to meet project needs and deadlines. (35 points).
3. Budget. Each proposal will be rated on its proposed cost-efficiency (30 points).
4. Please provide two professional references. (5 points)
5. Final proposals will be selected by a project committee.

Please submit a complete proposal (details above) on or before **September 30, 2024**.

Please submit clarification of the specifications contained in this RFP by **August 30, 2024**.

General Terms and Conditions

The Contractor will be required to execute a services agreement and must meet all of the terms of the insurance requirements. A sample services agreement can be provided upon request.

Assumptions

- The contractor will be fully bonded for the project amount. Contractor will also maintain a minimum of \$1 million in commercial general liability insurance which names SVC, the City of Sacramento and the State of California as additional insureds. Coverage will include auto liability insurance, and worker's compensation insurance which includes a waiver of subrogation.
- The contractor must warrant that the roof will be free from any defects in materials and workmanship for a period of not less than one (1) year following the date of final acceptance. The contractor's warranty may exclude damages or defects caused by: (i) ordinary wear and tear of the Project improvements under normal usage, (ii) abuse or neglect by other persons, (iii) vandalism and acts of God, and (iv) City employees and agents.
- Pursuant to Labor Code Section 1773, SVC requires the awarded contractor and subcontractors to pay their construction workers not less than the general prevailing rate of wages for such workers' craft or trade, as determined by the Director of the Department of Industrial Relations (DIR) as of May 24, 2022. In accordance with state laws and DIR's regulations, at a minimum these requirements include that the contractor and all of its subcontractors must be certified with the DIR, the Project is registered with DIR, daily reports describe the work performed, workers have been interviewed to insure proper classification, verification of fringe benefit and if applicable overtime payments occurs, apprentices were requested, and training fund payment is made. SVC will require a contract that requires the winning contractor to abide by these Prevailing Wages.

- SVC requires the contractor to commence the Project no later than three (3) months after contract award, unless an extension is approved by both parties, and thereafter shall ensure that the contractor diligently works to complete construction of the Project in a timely and efficient manner.

Project Location: Camp Pollock, 1501 Northgate Blvd, Sacramento CA 95815
